**IN LAIR OF THE LION**, historian Lee Stout and engineering professor Harry H. West show how Beaver Stadium came to be, including a look at its predecessors, “Old” Beaver Field, built in 1893 on a site centrally located northeast of Old Main, and “New” Beaver Field, built on the northwest corner of campus in 1909. Stout and West explore the engineering and construction challenges of the stadium and athletic fields, and reveal the importance of these facilities to the history of Penn State and its cherished traditions. Packed with archival photos and fascinating stories, *Lair of the Lion* is a celebration of the ways in which Penn State fans, students, and athletes have experienced home games from the 1880s to the present day, and the monumental structure that the Lions now call home.
